Aftermarket Services

Quality you can trust

Keep your equipment performing at its best

Made up of factory-trained experts, the JWC Environmental Service Solutions team provides startups, rebuilds, upgrades, replacement parts, and on-site service to help you extend the life of your investment and maintain safe, reliable operation.

Grinder service offerings

Every facility operates in its own unique environment, so JWC Environmental offers a range of grinder service options tailored to your needs. Whether you are looking for spare parts or a complete rebuild, we provide programs designed to protect your investment and deliver maximum long-term value.

Monster Renew® – Comes with a 1-Year warranty

This fast, hassle-free cutter cartridge replacement program keeps your grinder running while your new cartridge is on the way.

Genuine Monster parts

OEM components engineered for performance, safety, and long service life.

Repair and rebuild services

Factory-trained technicians restore your equipment to like-new condition with a one-year warranty on parts and labor.

The right cutter at the right location

Wastewater debris varies. Your cutter stack should, too.

Monster Stack™ matches cutter types to the specific debris found at each level of the waste stream, optimizing performance and extending cutter life.

Bottom of the stream: Extra-thick 7-tooth cutters crush rocks, grit, and heavy solids.

Mid-stream flow: Application-specific cutters target wipes, fibrous debris, or general solids.

Above the waterline: Corrosion-resistant stainless-steel cutters protect against aggressive environments.

Application matched cutter options

- Wipes Ready® cutters for eliminating pump-clogging wipes
- High tooth cutters for fine particle size
- General-purpose cutters for mixed debris

Monster Stack is available on:

- 30K Muffin Monster
- 40K Muffin Monster
- Channel Monster
- Channel Monster FLEX
- 3-HYDRO
- 4-HYDRO
